VALLIANI JEWELERS

Instagram Growth Plan ? Reach & Followers First

Main issue: the Instagram content likely feels too product-catalog heavy. That limits discovery. To grow numbers, the page should post more reel-first, people-first, hook-led content that gets watched, shared, and saved before asking people to shop.

1) What is going wrong and what to fix

Current Problem

Why It Hurts Reach

What To Do Instead

Immediate Fix

Too many product-only posts

Looks like shopping content, not follow-worthy content

Show people, reactions, try-ons, staff faces, styling moments

Make 3 of every 4 posts a Reel with a human in it

Weak video openings

People scroll before the product makes sense

Use a strong hook in the first 2 seconds

Start with: ?Best gifts under \$500? or ?Oval or emerald??

Trying to sell in every post

Ads get skipped; value gets followed

Use reach content first, sales content second

Keep about 70% posts for reach, 20% trust, 10% hard selling

No repeat content series

Audience and algorithm do not learn your pattern

Create 3 repeatable weekly series

Repeat gifts-by-budget, ring education, and real try-ons every week

Not using collab posts enough

You only reach your own audience

Use creator or customer collaborator Reels

Do at least 2 collab Reels per month

2) Content types that can grow reach and followers

Content Type

Why It Works

Example Hook

Priority

Budget gift Reels

Broad audience, high save/share potential

?Best jewelry gifts under \$250?

High

Bridal try-on Reels

Emotion + aspiration + comments

?She tried 3 rings and chose this one?

High

Lab-grown vs natural Reels

Curiosity and education

?Which diamond should you actually buy??

High

Styling Reels

Easy to watch and save

?3 necklaces that elevate a basic outfit?

High

Staff pick videos

Humanizes the brand

?If I had \$1,000, I would buy this?

Medium

Local store clips

Useful for nearby discovery and trust

?Top seller in our Fremont store this week?

Medium

Customer reaction clips

Social proof and emotion

?Her reaction when she saw the ring?

High

3) Very simple weekly plan

Weekly Action

How Many

Purpose

Hook-based Reels

4

Main source of reach from non-followers

Educational / saveable carousel

1

Gets saves and shares

Customer or bridal moment clip

1

Builds trust and emotion

Stories with polls / ?this or that?

Daily

Keeps engagement active

Collab Reel

1 every 2 weeks

Borrows another audience

Staff-face talking video

1

Builds familiarity and brand personality

Bottom line: Reach will improve when the account stops acting like a catalog and starts acting like a social-first jewelry page. Focus on reels with hooks, people on camera, gifting angles, bridal moments, and creator collabs. Sales can come after the audience starts watching and following.

4) Growth timeline in one table

Timeline

What To Expect

What Counts As A Win

Days 1-14

Reach may move first. Test reel hooks, gifting angles, and people-first videos.

1-2 posts beat your usual reach

Days 15-45

Non-follower reach, profile visits, saves, and shares should rise if the content direction is correct.

Clear lift in reach and profile visits

Days 45-90

Follower growth should feel more steady, and winning content can start converting into DMs

and inquiries.

Steady follower growth + more DMs

5) Content

Hook

Purpose
